👤 Louai

Profile

Junior Full Stack Developer with a longstanding passion in IT and its endless possibilities. Delving into Coding Dojo Bootcamp, I honed my technical skills and gained expertise in both front and back development. I worked on practical projects, applied my competencies targeting different needs and fostered my communication and interpersonal skills. I aim to join a dynamic environment with inspiring individuals to create innovative solutions.

Projects

Dream Estate

Full-Stack Developer/ Team / 3 Weeks

- Designing the Database using MySQL
- Developing the Front-end using HTML, CSS, JavaScript and Jinja
- Developing the Back-end using Python, Flask

Key Achievement:

I developed a website that aims to provide users with a seamless experience to buy or sell a house while providing diverse and affordable options.

Technologies : HTML, CSS, JavaScript, Jinja, Bootstrap, MySQL, Flask, Python, Canva, Trello

Escapism

Full Stack Developer & Scrum master / Team / 2 weeks

- Development of the Forum Page using React.
- Development of the front-end and back-end of the Admin Page and Dashboard.
- Implemented a live chat using Socket.io.

Key Achievement: I developed a website that allows campers to create and explore events while fostering the connections between the camping community with a forum with interactive features and a chat application in an aesthetically pleasing design.

Technologies: React, Express JS, Bootstrap, MUI, Framer motion, CSS, Mongo DB, Socket.io
